QUESTIONNAIRE

Q. How can I tell if a decal is a watermount decal?

A. *If your dealer cannot advise you, you may snip o portion of the decal and give it the watermount immersion test. Disintegration will occur if decal is non-processed varnish decal.*

★ ★ ★

Q. Can decals be successfully fired on matt glaze?

A. *Yes and no. Any matt glaze that will receive over-glaze decoration and firing, will readily accept decal decor. I would advise experimental tests.*

★ ★ ★

Q. Can I use decals to decorate porcelain bisque?

A. *Yes and no. This depends both on type of bisque, as well as type of decal. Experiment.*

★ ★ ★

Q. I have a lot of watermount decals, but can't tell what kind of watermount. How can I tell what directions to follow to use them?

A. *Slide-off watermount decals are printed on simplex paper. These may be immersed in water, and transferred to the glazed ware. Converted watermount decals are printed on duplex paper. The backing paper must first be stripped off, then the tissued decal only, immersed in water, and transferred to the glazed piece. Check the paper.*

★ ★ ★

Q. Can we use decals on ceramics, the decals bought in a paint store?

A. *Not if you expect to fire them. Ceramic decals are made with ceramic colors.*

★ ★ ★

Q. What causes my pink flowers to look brown after they are fired?

A. *The firing cycle was not hot enough for proper maturity. Re-fire at cone 018 or $17.*

★ ★ ★

Q. What is meant by burnish gold decals?

A. *Burnish gold contains more gold coin than does bright gold, but it requires an after-firing burnish to bring out the lustre. (Burnish sand, or pads available at your dealer.)*

★ ★ ★

Q. What is the reason for not tinting around a decal until after it is fired?

A. *We advise firing the decal first so that all the decal sizing or adhesive will burn off. This resist interferes with smooth decorating, however, many decorators can complete an item in one firing. To avoid complications, we recommend firing first, as much of the hazard is eliminated by this method. All gum film burns off in firing.*

★ ★ ★

Q. Can I fire decals and gold decoration in the same kiln fire?

A. *Yes. In view of the fact that some of your decals will need a hotter fire for maturity than does some gold decor, it would be wise to single out those pieces which would not make a practical combination load.*

★ ★ ★

Q. Can we apply a decal and gold decor to the same piece, and fire it just once?

A. *Yes. In the event any adhesive tricklings interfere, use alcohol to clean ware.*

Q. A potter manufacturer advises me to use distilled water in setting decals. Please advise.

A. *We use tap water, however, we have been advised that distilled Water is best in some areas.*

★ ★ ★

Q. What causes a decal to blister in the firing?

A. *There is more than one answer, however, the chief reason lies in the fact that all of the water underneath the decal has not been pressured out, or that not a sufficient drying time has been allowed—allow at least 24 hours to elapse before firing.*

★ ★ ★

Q. Why can't we buy decals of all the popular emblems, American Legion, etc.?

A. *An emblem is usually copyrighted. No reliable decal company will print and sell copyrighted material without the sanction of the owner.*

★ ★ ★

Q. I have a lot of old varnish decals. Can I convert these myself?

A. *Yes, however, results are neither uniform nor guaranteed. Would recommend varnish.*

★ ★ ★

Q. Just what is a varnish decal?

A. *One which has been manufactured for application with the use of varnish "size."*

★ ★ ★

Q. What is meant by a "converted" decal?

A. *A varnish-mount decal which has been converted to be applied watermount application.*

★ ★ ★

Q. Will decals deteriorate?

A. *Watermount decals, under ideal storage conditions, will maintain a usable life span of from 3 to 5 years. Packaged decals stay fresh longer than sheet decals.*

★ ★ ★

Q. What causes a fired decal to rub right off after firing?

A. *Insufficient firing. A properly fired decal will fuse into the glaze.*

★ ★ ★

Q. I want to decorate a set of dinnerware with decals. Won't these wear off with use?

A. *Decal-decorated dinnerware, properly fired, is quite a permanent decoration. We have a portion of a set so decorated, which has been in our family for over 80 years.*

★ ★ ★

Q. Why do my decals fire different colors? Same decal, various pieces?

A. *Two main reasons:*

1. *You are apparently not maturing the decals to the same firing temperature each time; OR*
2. *Your glazed pieces may vary in "hardness." Ceramic or pottery pieces require a cooler fire than does porcelain or china.*

★ ★ ★

Q. I have a few experimental pieces on which the decals were not properly applied, and want to correct them. What should I do?

A. *Try re-setting a duplicate decal, carefully positioning for perfect register. A re-fire of a double-set is often hard to duplicate for deep beauty, especially with red roses. Also, it is possible often to eradicate most of the previous decor with a gold eraser, or with a re-fire in a bisque or glaze load.*

This questionnaire should answer most of your everyday problems on decals. If you wish any additional information, write or contact our Research Department, specifically stating just what is your problem. We shall be happy to make laboratory tests and advise you of our results.

Keep the Prayer the Easterners do:
May the peace of Allah abide with you.
Wherever you stay, wherever you go.
May the beautiful palms of Allah grow.
Through the hours of labor and nights of rest,
May the great love of Allah make you blest.
So I touch my heart as the Easterners do:
May the Peace of Allah abide with you.

Life's Clock
The clock of life is wound but once.
And no man has the power
To tell just where the hands will stop
At late or early hour.
To lose one's wealth is sad indeed:
To lose one's health is more:
To lose one's soul is such a loss
As no man can restore.
The present only is our own.
Live, love, toil with a will—
Place no faith in "tomorrow"—for
The clock may then be still.

The Prayer of Faith
God is my help in every need;
God does my every hunger feed;
God walks beside me, guides my way
Through every moment of the day.
I now am wise, I now am true.
Patient, kind, and loving, too.
All things I am, can do, and be,
Through Christ, the Truth that is in me.
God is my health, I can't be sick;
God is my strength, unfailing, quick;
God is my all, I know no fear,
Since God and love and Truth are here.

Collect

Keep us, Oh God, from pettiness;
let us be large in thought, in word, in deed.
Let us be done with fault-finding, and,
leave off self-seeking.
May we put away all pretense, and meet each
other face to face—without self-pity,
and without prejudice.
May we never be hasty in judgment and
always generous.
Let us take time for all things;
Make us grow calm, serene, gentle.
Teach us to put into action our better
impulses, straightforward and unafraid.
Grant that we may realize it is the little
things that create differences, that in the
big things of life we are at one.
And may we strive to touch and to know the
great, common human heart of us all, and
Oh Lord God, let us forget not to be kind!
